

# IFTA's XXII Conferencia Mundial De Terapia Familiar Ciudad de Panamá, Panamá Marzo 5 - 8, 2014

## Tema de Conferencia: **Tecnología, Familias, y Terapia Eficaz**

### Como registrarse en línea:

1. [www.ifta2014.org](http://www.ifta2014.org)
2. Abra su cuenta usuario
3. Seleccione las opciones en donde quiera registrarse
4. Entre la clave, "57F0A9"
5. Seleccione su método de pago (Tarjeta de Crédito, Cheque, Transacción Bancaria)
6. Complete su pago

### Como hacer una Reservación en el Hotel:

Visite nuestra página y siga las instrucciones: (Book your hotel room)  
Reserve su habitación

[http://www.ifta-congress.Org/venue\\_and\\_accomodations.php](http://www.ifta-congress.Org/venue_and_accomodations.php)

### Conferencistas Plenarios(En Inglés y Español):

#### **Gonzalo Bacigalupe, EdD, MPH**

*Emerging Technologies, Family & Psychotherapy:  
Beyond Control & Toward Curiosity.*

La presentación se basa en un reviso crítico de literatura, sus propios estudios empíricos en el impacto de la tecnología y situaciones clínicas en donde la tecnología es la protagonista en los problemas de familia y el trabajo terapéutico.

#### **Stan Tatkin, Ph.D.**

*Wired for Love: A Psychobiological Approach to Couples*

Un desarrollo de Acceso- Psicobiológico de Terapia para Parejas(PACT). El Doctor Tatkin presentará una breve introducción al acceso de terapia para una pareja. La presentación se enfocará en la importancia de usar técnicas somatoafectivas para descubrir y dar tratamiento a problemas relacionados al historial de dependencia, de desregular el deseo sexual, y de deficiente socio-emocional.

#### **Janine Roberts, PhD & Merli López Rodríguez** *Terapia Sistémica con Familias y Niños Trabajando en las Calles de Ecuador y México*

Dos participantes de la organización JUCONTI(Juntos con los Niños) han desarrollado e implementado una estructura de cuatro etapas para trabajar con una margen mínima y excluyendo familias. Merli López Rodríguez, experta líder del Ecuador, explicará las cuatro etapas y estrategias creativas para incluir familias en el trabajo terapéutico.

Janine Roberts, PhD, describirá procedimientos claves cuando haga entrenamientos para las organizaciones por la primera vez.

### Presentaciones Intensivas Pre-Conferencia:

#### **Dorothy S. Becvar, Ph.D.** *Resumen e Introducción a la Terapia Familiar*

Este taller proveerá una encuesta sobre la terapia familiar incluyendo los orígenes epistemológicos, la primera y segunda orden de cibernéticos y mucho más ejemplos de la terapia familiar.

#### **Certificado:**

En cuanto complete este curso de todo el día, los participantes recibirán un Certificado de Asistencia indicando su participación en el curso Terapia Familiar Intensa, la cual es aprobado por IFTA.

#### **Stan Tatkin, Ph.D.** *El Ejemplo PACT*

Este taller explora que tan pronto los patrones de apegos se marcan somáticamente en el desarrollo del cerebro y en el sistema nervioso y así cómo interpretar las reacciones somáticas.

#### **Certificado:**

En cuanto complete este curso de todo el día, los participantes recibirán un Certificado de Asistencia indicando su participación en el curso Terapia Familiar Intensa, la cual es aprobado por IFTA.

# IFTA's XXII World Family Therapy Congress Panamá City, Panamá March 5 - 8, 2014

## Conference Theme: **Technology, Families and Effective Therapy**

### How to Register:

1. [www.ifta2014.org](http://www.ifta2014.org)
2. Create a user account.
3. Select the options you want to register for.
4. Select your payment method  
(Credit Card, Check, or Bank Transfer).
5. Complete your payment.

### How to Make a Hotel Reservation:

Visit this link & follow directions under "Book your hotel room":

[http://www.ifta-congress.Org/venue\\_and\\_accomodations.php](http://www.ifta-congress.Org/venue_and_accomodations.php)

### Major Plenary Speakers:

**Gonzalo Bacigalupe, EdD, MPH**  
*Emerging Technologies, Family & Psychotherapy:  
Beyond Control & Toward Curiosity.*

"Information technologies are an unavoidable and often indispensable dimension of our family and community life. Families communicate and engage through the use of an evolving set of emerging technologies. The adoption of these technologies, however, tests our ability as psychotherapists and citizens to understand how families are embracing and challenged by them. In this presentation, I explore some of the challenges and critique the usual discourse about technology

that changes from a nostalgic assessment of family life without them to the utopian idea that these technologies will help us to resolve quickly some difficult social dilemmas. The talk is based on a critical review of the literature, my own empirical research on the impact of technology, and clinical situations in which technology is protagonist of family difficulties and therapeutic work. Questions I intend to answer include: What are the untapped opportunities for therapeutic interventions that embrace technology in the therapy session? How do we frame our conversations about technology in ways that invite collaboration rather than diagnostic labels or the need for control?"

**Stan Tatkin, Ph.D.**  
*Wired for Love: A Psychobiological Approach to Couples*

Developer of A Psychobiological Approach to Couple Therapy® (PACT), and author of *Wired for Love: How Understanding Your Partner's Brain and Attachment Style Can Help You Defuse Conflict and Build a Secure Relationship*, Tatkin will provide a brief introduction to the PACT approach to couple therapy. A bottomup, body oriented method

for working with implicit memory systems in primary attachment relationships. The presentation will focus on the importance of using somatoaffective techniques for discovering and treating problems related to attachment history, arousal dysregulation, and social-emotional deficits. Clinical video examples that demonstrate methods for accessing nonverbal information implicit in microexpressions and micromovements and for effectively using that information in the therapy session will be provided.

**Janine Roberts, PhD & Merli López Rodríguez**  
*Systemic Therapy with Families and Children Working in the Streets in Ecuador and Mexico*

Over the last twenty years, two JUCONI (Together with the Children) centers have developed and very successfully implemented a four-stage framework for working with marginalized and excluded families. They break multigenerational cycles of poverty and lack of access to education and get kids off the streets and back in school. The clinical leader from JUCONI Ecuador (Merli López Rodríguez) will explicate these four stages as well as creative strategies for engaging families in therapeutic work. Janine Roberts, who has trained therapists for both JUCONI Ecuador and JUCONI Mexico for over a decade will describe key processes in entering organizations to do trainings including: shadowing staff, delivering topics on demand, moving in and out of the role of facilitator and participant, entering into the trainings from different vantage points within an organization, and designing activities with an eye to how they will impact work relationships of staff and clients.

### Presentaciones Intensivas Pre-Conferencia:

**Dorothy S. Becvar, Ph.D.**  
*Family Therapy: An Overview*

Dorothy Becvar, Family Therapy: An Overview This course provides a survey of the family therapy field, including its epistemological roots and both seminal and current approaches to clinical practice. Participants are introduced to a systems theoretical perspective at the levels of first-order and second-order cybernetics as well as to the distinctions between modern and postmodern orientations to therapy.

**Stan Tatkin, Ph.D.**  
*The PACT Model*

This workshop explores how early attachment patterns are somatically imprinted onto the development of the brain and nervous system and how to interpret the consequent somatic responses The PACT methodology utilizes a bottom-up versus a top-down approach to psychotherapy focusing on very fast, often surprising interventions in order to access implicit systems as revealed in micro-expressions and micro-movements in the face and body, respectively.
